Try our tool and identify IP opportunities and risks

We live in a digital age. Innovation is the cornerstone of today's economy. There is tech within each company and intellectual property is key for a company's value (in fact all intangible assets are key). A focus on intellectual property increases value and reduces risks. This has an impact on every M&A deal.

Focus on IP

Value growth

IP helps **staying ahead** in competition

Means **leverage** in many different ways

IP value can increase indefinitely

Boosts expansion, marketing and sales

Prevents discontinuity

in IP/IT licenses after a deal

Reduces operational risks

Improves **knowhow protection** (by security/NDA's)

Can **ensure continuity** (by bankruptcy remote vehicle)

Risk reduction

We created an easy-to-use tool to identify IP risks and opportunities.

Kriek Wille, Chris In 't Veld and the other members of the IP team are available to give your company practical tips and will be happy to provide additional information or details.

You can find the tool here: vandoorne.com/ietool
